SCOTT'S LITTLE GIANT CORN AND COB

THERE are features connected with this Mill worthy of consideration and close examination on the part of those wishing to purchase a Feed Mill. Its mechanical construction and adaptation to the purposes designed to crush and grind ear corn. Its great capacity, while doing an immense work with extraordinary ease, its durability is amply provided for. The complete and entire portableness of the Little Giant, rendering its greater convenience for clanation and farm use impossigreater convenience for plantation and farm use impossi-ble. It requires no mechanical aid or bill of expense to put it up, any farm hand or servant can put up and set one running in haif an hours time. The convenience with which the sweep may be applied to run horizontal—as is most usual—or over head, and the mill may be easily at-tached where steam or water is used. The power it takes, requiring one and two horses. The quantity and quality of product, 18 to 50 bushels of good feed meal per hour, according to the degree of fineness ground, and the size tail. It is the cheapest mill, all things considered, there s before the public.

Another thing connected with the Little Giant, as a pat-ent, and worthy of note, is the fact that there has been no Fatest Right's speculating or buckstering about the country, as is usual with the thousand bungling make shift implements that are got up as a trade—merely to get notes by selling or paining of the patent right upon the creditions—then the machine to be abandoned by all parties as a combug; on the other hand the Patentee and Proprietors of the Little Giant Mills, believing that they can—and de-termined that they will supply the Agriculturalists and Stock raisers of our country with a superior Mill, are per-numently engaged in the business, and have over one hundred thousand dollars invested in the manufacture of these mills, in the East, West and South, some of these establish ments employing 60 men solely in this business. No high ly are these mills appreciated, that four thousand have been sold within the past eighteen months, and the heaviest and the most extensive Manufacturers of Agricultural imple ments in the United States have eagerly sought an interest in their manufacture and sale.

No implement has been more thoroughly tested; no one of the kind has received so numerous and high testimonials from Mechanics' Institutes and Agricultural Associations, and none by reason of substantial, practical utility and merathave more fairly ground their way into every day use and popular favor than Scott's Little Giant Corn and Cob Mill. Orders promptly filled. Liberal discount to dealers. BROWN & ANDERSON,

YOUNG, WYATT & CO., Savannah, Ga., Charleston, South Carolina, FORWARDING AGENTS & GENERAL COMMISSION MERCHANTS.

Will would respectfully aunounce to the Merchants of Nashville and vicinity, that we have secured the services of the well known house of Messrs. W. H. GORDON & CO., whose pleasure it will be to present our forwarding bills for collection at the counters of our patrons in Nashville. Our bills being roade payable in Nashville, will effectually do away with all the aunoyance and incon remembe heretofore arising from having to purchase drafts, make remuttances, leave deposits, &c. &c.

Goods consigned to our care are incariably forwarded the same day of arrival, unless discharged from vessel after the rail and depot is closed for the night;—when this ceurs, the goods are slowed in our fire-proof ware-house ered by invarance, at no additional cost to our patron We would again return our grateful thanks to merchants generally in Tennessee for the patronage beretofors so lib-orally bestowed upon us, and at the same time respectfully est to patronize our houses.

YOUNG AMERICA. A GENTS wanted in every county in this and adjoining States to sell the above new and improved CORN AND COR MILL. To all such, a rare chance to make money will be offered. Exclusive State and County privileges will be disposed of ou unusually fair terms, by

FARMERS AND STOCK RAISERS. I offer you a Corn and Cob Mill unsurpassed in the Union, and which cannot be superceded by past or future nventions. It is the very Mill which every Farmer and slock Raiser should have, it will crush from 8 to 10 bushels Corn and Cob per bour, with one horse; is easily fitted rinding surfaces is prevented, will last any farmer an or

dinary lifetime. I speak thus of its durability because the same principle has been fairly tested in the old Bark Mill. Who is it that wants A MILL ON TRIAL for one month, and if it don't give complete satisfaction, to return it? If there be any man thus disposed, let him now speak. Satisfaction is warranted in every case, or the mon-ey will be refunded. This Crusher can be attached to horse, water or steam power, which renders it the most convenient Mill south of Mason's and Dixon's line. All other Grushers now in the south require too much power,

or will some wear con. According to THE LAWS OF NATURE a Carn and Cob Mill which admits of a lateral or wabbling motion, will, necessarily, seen wear out; allother Crushers are amenable to this grand objection, and the Proprietors date mit doppite it. In the co-struction of "Forms Amer-ica," I have gamed power, and I defy contradiction; I have they other Mid. I am now selling this Ten

HELMBOLD'S GENUINE PREPARATION. HELMBOLD'S HIGHY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU or discuses of the Bladder and Kidneys, Secret Discuses, Strictures, Weaknesses, and all discuses of the Sexual

Organs, whether in Male or Female, from whatever cause

they may have originated, and no matter of how long I F you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust your-self in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods, too well calculated to deceive the young, and those not ac-quainted with their tricks. You cannot be too careful in he selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by emi ent physicians the greatest remedy ever known. It is a

medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisoneus virus of this dreadful disease; and, unlike other remedies, does not dry up the Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the hu-man race to untimely graves, thus blasting the brilliant uition of many a noble youth, can be cured by this infallible Remedy. And as a medicine which must bene-it everybody, from the simply deheate to the confined and lespairing invalid, no equal is to be found acting both as a

HELMBOLD'S HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT SARSAPARILLA. for Purifying the Blood, removing all diseases arising from excess of Mercury, exposure and imprulence in life, chronic constitutional disease, arising from an im-pure state of the Blood, and the only reliable and effec tual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all Scaly Eruptions of the Skins. CitlS article is now proscribed by some of the most distinguished physicians in the country, and has

proved more efficient in practice than any preparation of Sarsaparil a yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our Pubic Institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this nedicine in arresting some of the most inveterate diseases, ifter the glands were destroyed, and the bones already

Nashville Sewing Machine Company Nos. 71 and 72 EAST SIDE OF THE PUBLIC SQUARE,

NASHVILLE, TENNESSEE. THESE Machines are now very justly considered to be the best in use, having the advantage of all others in the simplicity of their construction, the speed and beauty of their work, and the great strength of their seam. Unlike any others in use, they form a seam with two continuous threads from ordinary speels of cotton, silk or linen—making a knot at every stitch which prevents the work from ripping under at every stitch which prevents the work from ripping under any circumstances whatever.

The first and highest premiums have been awarded to these Machines at all the leading Fairs throughout this country and Europe, and the inventor now rejoices in the more substantial reward of the largest patronage ever bestowed upon any Sewing Machine in Europe or America.

They are of the highest finish, and of overy variety of size and siyle, and adapted to all the wants of the Sewing community. munity.

They are all secured exclusively to the proprietors by letters patent, and are free from all legal controversy. Great pains has been taken to adapt these Machines to Plantation

pains has been taken to adapt these Machines to Plantation sewing, and they are now so simple, durable and easily run and tended by any person, that they are entirely beyond competition for this work or for the manufacture of heavy or light bags, for Corn or Wheat, no machinery has ever been invented to surpass them—any person after one hours practice can make from 400 to 700 corn sacks per day on one machine. These machines are also equally well adapted to the manufacture of all kinds of clothing, course or fine, as well as general sewing, quilting, stitching, dec. These machines are so arranged as to make the stitch any length desired, and to sew with ease any and every seam in any garsired, and to sew with ease any and every seam in any garment, and the durability, regularity and benuty of finish, cannot be equaled by any work accomplished by the most We shall at all times keep on hand a ull assortment of
